## Are you considering Total Joint Replacement Surgery?

Learn more about our unique **Hospital to Home Program**, weekly **Total Joint Replacement Seminar** and more. Call Ramona Persaud for more information at 203-573-6109.

## Hospital to Home Program

Most of our patients will go directly home after their total hip or total knee replacement surgery through our unique and sought-after Hospital to Home Program, a collaborative program offered to you by Waterbury Hospital's Joint Replacement Center, VNA Health at Home and Access Rehab Centers. The program was designed to return you directly to the comfort of your own home as early as **same day of surgery**, ensuring your safety, successful recovery and a smooth transition. Patients are returning to their families and routines sooner than ever!

Our comprehensive program begins well before the surgery itself, with educational classes and a home evaluation. A customized plan of care after surgery for ongoing physical therapy will be developed for you.

## Total Joint Replacement Seminars

Joint Replacement Class is an important opportunity to learn everything you need to know about your upcoming Joint Replacement Surgery at Waterbury Hospital.

- See our Orthopedic floor and meet members of your healthcare team who will address your questions and concerns
- Learn how our specialized team of Orthopedic providers will lead you through your hospital stay
- Hear what you can do to prepare yourself and your family for your upcoming procedure

We, the **Orthopedic Physician Assistants**, work hand in hand with your surgeon in managing your care before and after your surgery. We assist your doctor with surgery and care for you post-operatively, ensuring that you are comfortable and recovering well throughout your entire stay with us. We help you to safely return to your home and family without delay. We are here for you, every step of the way.
